BWBS Safety Inspection:		
Under Hood / Cab Tilted:		
[42]	Check wiring condition, routing and security (includes check for ignition or charging suppression on PSV's):	
[43]	Check engine mountings for condition and security.:	
[44]	Check for water, oil and fluid leaks.:	
[45]	Check fuel pipes for leaks, condition and security.:	
[30]	Check steering column flexible/universal joints for security and free play.:	
[59]	Check brake pipes, cylinders, reservoirs, rods, relays, levers, linkages, valves and connections for operation, leaks, condition and security.:	
[33]	Check road speed limiter for security, disconnection or damage to rods/cables and electrical wiring. Check presence and security of seals where visible.:	
Floor:		
[53]	Check stub axle lift and wheel bearing end floats.:	
[6]	Check road wheels, wheel nuts, hubs and halfshafts for application, condition and security.:	
[16]	Check all hinged and sliding door mechanisms for operation, condition and security (includes emergency exits and markings on PSV's):	
[9]	Check bumper bars, sideguards and rear under-run device for position, construction, security and condition.:	
[14]	Check wings and wheel arches for security, condition and damage.:	
[14]	Check spray suppression equipment for security and setting.:	
[19]	Check body for security and condition (includes access doors, flaps and luggage compartment on PSV's):	
[20]	Check battery connections and carrier for security. Check battery for leaks.:	
[42]	Check tow hook/coupling for security, condition and wear.:	
[11]	Check fifth wheel coupling for security, condition and wear.:	
[11]	Check cab mounting and suspension for condition and security.:	
[42]	Check wiring condition, routing and security.:	
[22]	Check the number, position, security and condition of exterior mirrors.:	
[12]	Check trailer emergency brake for operation, and air line connections for security and condition.:	
[33]	Check road speed limiter plate for position and details.:	
[62]	Check rear markings and reflectors for position, security, visibility, colour, type and condition.:	
[45]	Check presence, accessibility, condition, markings and operation of fuel emergency cut off device (PSV's ONLY):	
[5]	Check exhaust emission for density.:	
Under vehicle:		
[53]	Check stub axles, king pins, ball joints and bushes for security, condition and wear. Report defects.:	
[54]	Check steering linkages and associated components, on all steered axles, for security, condition, operation, and wear.:	
[54]	Check steering gear for security, condition and operation. Check condition of steering rack gaiters.:	
[48]	Check suspension and anti-roll bars, pins and bushes for security, condition and wear.:	
[48]	Check mechanical and air suspension spring units and torsion bars for security, condition and wear.:	
[48]	Check attachment of suspension spring units and linkage brackets for security, condition and wear.:	
[48]	Check shock absorbers for security, condition and leaks.:	
[54]	Check power steering for operation, security, condition and leaks.:	
[59]	Check front brake linings/pads, discs, calipers, drums, backplates, and mechanisms for security, condition and wear. Report defects.:	
[59]	Check rear brake linings/pads, discs, calipers, drums, backplates, and mechanisms for security, condition and wear. Report defects.:	
[59]	Check brake actuators for security, leaks, condition, operation and travel of operating piston/diaphragm mechanism.:	
[59]	Check brake pipes, cylinders, reservoirs, valves and connections for operation, leaks, condition and security.:	
[59]	Check hydraulic wheel cylinders for operation, condition, security and leaks.:	
[41]	Check chassis, crossmembers, and integral body panels for condition and security.:	
[10]	Check spare wheel and spare wheel carrier for condition and security.:	
[46]	Check exhaust and waste systems for leaks, operation and security. Report defects.:	
[45]	Check fuel tank, filler cap, straps and brackets for condition and security.:	
[45]	Check fuel tank and fuel pipes for leaks.:	
[30]	Check steering column flexible/universal joints for security and free play.:	
[26]	Check tachograph seals for presence and condition.:	
[57]	Check driveshaft universal joints for condition and wear.:	
[57]	Check driveshaft bolts, flanges and mountings for condition and security.:	
[43]	Check transmission mounting condition and security.:	
[43]	Check engine mounting condition and security.:	
[44]	Check for water, oil, fluid and waste leaks.:	

IM	Check	J
[19], [20]	Check body for security and condition.:	
[42]	Check wiring condition, routing and security.:	
[58]	Check additional braking devices and components for condition and security.:	
Inside Vehicle:		
[1]	Check Ministry Plates/Registration Plates:	
[33]	Check road speed limiter decal/plate fitment in cab, markings and visibility.:	
[30]	Check steering wheel condition, security and free play.:	
[30]	Check steering column for condition, security and free play.:	
[27]	Check audible warning device for operation and security.:	
[42]	Check all lighting switches for position, security, and operation and that for PSV's, any television receivers are not visible to the driver whilst driving.:	
[26]	Check speedometer for condition and illumination.:	
[26]	Check tachograph for condition, illumination, condition of seals and 2 Year / 6 Year due date:	
[34]	Check operation of pressure/vacuum warning device.:	
[34]	Check build up of pressure/vacuum.:	
[36]	Check handbrake lever controlling mechanical brake systems for condition, security, travel and operation.:	
[37]	Check service brake pedal for condition, security, and operation.:	
[38]	Check service brake operation, including ABS operation.:	
[39]	Check hand operated brake control valves for security, condition, leaks, travel and operation.:	
[54]	Check power steering system for operation.:	
[28]	Check drive controls (except brakes and steering) for condition, access, operation and security.:	
[25]	Check windscreen wipers and washers for operation and condition.:	
[23]	Check clear view to the front (through windscreen) and to the sides (through side windows), and check security and condition of all glass.:	
[22]	Check condition of interior mirror (WHERE FITTED).:	
[18],[3]	Check seats and seat belts (WHERE FITTED) for security, operation and condition.:	
[17]	Check cab floor, steps, and internal wheel arches, for condition and security (includes demist equipment, grab handles and drivers escape window on PSV's):	
[21]	Check interior of body, passenger entrance/exit steps and platforms including hand rails, seats, interior lights (PSV's ONLY):	
[21]	Check audible or visual devices for driver alert, fire extinguishers and first aid equipment for security, condition, or operation (PSV's ONLY):	
Lighting:		
[63]	Check headlamps for operation, condition and security.:	
[67]	Check headlamp alignment.:	
[63]	Check front lamps, and front outline marker lamps for operation, condition and position.:	
[63]	Check reflectors and stop lamps for security, condition and operation.:	
[66]	Check direction indicators, hazard warning lamps and tell-tale lamps for operation and condition.:	
[63]	Check rear lamps, rear outline marker lamps, rear fog lamps, and rear number plate lamps for operation, condition and position.:	
Conditions Of Tyres And Damage Report:		
[7]	Size & type of tyres:	
[8]	Condition of tyres & damage report:	
Trailer Only:		
[11]	Check coupling on trailer for security, condition and wear.:	
[13]	Check trailer landing legs for security.:	
[12]	Check trailer parking brake for condition, travel and operation:	
Final check:		
[74]	Check for any dangerous defect not specifically covered by above items.:
